**SPECIAL PROVISIONS:**

No additional charge shall be established for recirculating water or air-cooled air conditioning units.

Rates apply to normal sewerage as defined by the NJDEP and the Ocean County Utilities Authority (“OCUA”). Aqua reserves the right to require pretreatment prior to discharge into the sewer system if the sewerage contains harmful substances such as gasoline, P.C.B.s, oil, explosive liquids, grease, phenols, acids, alkalines, lint, excessive detergents or any other toxic or hazardous substances as defined by NJDEP and/or OCUA. This paragraph includes but is not limited to laundromats or dry cleaners where the owner will be required to provide a screen or filter to remove excessive lint before discharge into the sewer system.

As of January 1, 1997, OCUA has imposed these local limits for industrial and non-domestic waste water discharged to its northern plant: 300 ppm B.O.D.; 300 ppm T.T.S. Any charges imposed by OCUA for treating these or any other special substances shall be passed through to the specific customer.
